

## VCRGE Research Services

The VCRGE Office of Research Services provides oversight of research administration activities for VCRGE Centers and support of campus-wide research functions requiring central coordination. We help ensure effective and efficient central coordination of various functions for campus, including: institutional and limited grant nominations, equity review of university invention disclosures, serving as a resource for faculty and other researchers for IP policy and ownership issues, and any central coordination of grant proposals. The office also provides oversight to pre- and post-award grants and contracts administration for all VCRGE Centers to ensure compliance with applicable laws, policies and guidance. The list of tasks listed below is a small sampling of services offered. Please feel free to contact Nick, Amber, Kristin or Lee if you're interested in discussing any of these topic areas.

Task	Nick	Amber	Kristin	Lee
WISPER, Cayuse, Fastlane, Grants.gov, eRA Commons	Secondary	Primary		
Sponsored Award Management & Closeout	Primary	Primary
