Budget Justification

Provide a justification for each expense in your budget. If salary support is requested for the Principal Investigator, a graduate student, or other research personnel, provide a description of their role and major research responsibilities on the project. Requests for equipment, travel, and supply costs must include a brief justification as to how these expenses are necessary to complete the work described in your proposal.

A detailed Budget justification and budget priorities is requested and may be up to 2,000 characters (a space is a character). You cannot include special characters, bolding, underlining, graphics, equations or formulas.

Startup Amount

Startup Amount Exceeds 25% Original Award Amount

Yes

Plans to Spend Remaining Startup Funds: If you have startup funds that exceed 25% of the original award, provide a plan to spend your remaining startup funds. This may be up to 2,000 characters (a space is a character). You cannot include special characters, bolding, underlining, graphics, equations or formulas.

Layperson's Summary

To the best of your ability, please summarize your project in language that could be understood by someone outside of your academic discipline. FRC Lead Reviewers may NOT be experts in your discipline. Please keep this in mind as you're writing the Layperson Summary.

This helps VCRGE convey the nature of your project to the WARF Board.

The Layperson's Summary section may be up to 2000 characters long (a space is a character).

You cannot include special characters, bolding, underlining, graphics, equations or formulas in this summary.

Project Description

If appropriate for your research project, please use the following headings in writing your project description:

- a. Specific aims/research questions
- b. Significance (with attention to how the study adds to the literature or advances your field)
- c. Approach (design, methods, and analysis)
- d. Expected products (e.g. conference presentations, publications, grant proposals, performances/exhibitions)
- e. Future directions

Otherwise, you should focus on: (1) What you plan to do and when; (2) How you plan to do it; and (3) What product is likely to result.

This project description should be no longer than 10,000 characters (a space is a character); It is roughly equivalent to 4 to 5 double-spaced pages with 12 point Times font size.

You cannot include special characters, bolding, underlining, graphics, equations or formulas in the project description. If you feel your project description will not be understandable with these limitations, take a copy to your interview or work this out with your interviewer when they contact you to set up the appointment.

You can type directly into the Project Description field or copy and paste from a variety of file formats. For safety's sake we recommend creating the project description in a word processor and saving it before you copy/paste.

You can upload a one-page figure or document as a PDF. The Online Application will guide you through the process.
WARNING: Do not upload PDFs bigger than 50M. If you need help reducing the file size, please contact your department's IT Staff.
