

▼ Applicant Information

Name	Bucky Badger
Rank	Professor
Department	Animal and Dairy Sciences
UW Divisional Affiliation	Biological Sciences
Division Best Suited to Review Application	Biological Sciences

▼ Contact Info

E-mail	bucky.badger@wisc.edu
Campus Address	100 BASCOM HALL
Phone	608-123-4567

▼ Academic/Work Background

▼ Degree Obtained

Degree Obtained	Institution	Year Obtained
PhD	University of Wisconsin - Madison	2000

▼ Date of Faculty Hire

Month	8
Year	2025

▼ Number of Students Currently Advising and Research Staff Members

PhD's	4
Masters/Terminal Degrees	3
Undergraduate Researchers	2
Research Staff Members	5

▼ Project Information

▼ Project Title

Project Title - The Project Title may be up to 250 characters long. You cannot underline or bold text.

▼ Project Abstract

The Project Abstract Section may be up to 1,000 characters long (a space is a character).

You cannot include special characters, bolding, underlining, graphics, equations, or formulas in the project abstract.

▼ Project Specifics

▼ Project Travel

\$2,000.00

Months Leaving	1
Destination	Costa Rica
Estimated Fare	\$1,000.00
Other Project Travel	\$1,000.00

▼ Equipment Listing

\$5,000.00

Description	Proposed Use	Requested From OVCRGE	Total Value of Equipment
Description	Proposed Use	\$5,000	\$10,000

▼ Other Expenses

\$3,000.00

Supplies and Expenses	\$3,000.00
-----------------------	------------

▼ Budget Justification

Provide a justification for each expense in your budget. If salary support is requested for the Principal Investigator, a graduate student, or other research personnel, provide a description of their role and major responsibilities on the project. Requests for equipment, travel, and supply costs must include a brief justification as to how these expenses are necessary to complete the work described in your proposal.

Please rank your budget priorities utilizing the prefix "1)" for highest priority with "10)" being the lowest.

The Principal Investigator salary should be your current UW salary rate and base (academic or annual).

OVCRGE will update awards with the new salary rate if necessary. Tenure track faculty who have a 12-month appointment will not be able to request salary support.

Per OVCRGE and NIH policy, faculty Salary is capped at \$212,100 for purposes of compensation.

\$159,075 represents 9 months (academic year) of an annual 12 month \$212,100 salary.

When you fill out your budget page you can now choose between four types of graduate assistant appointments Academic PA, Annual PA, Academic RA and Annual RA. Please check with your department administrator to find out how graduate assistants are appointed in your department.

We will be using the current year rates for RA/PA for your department. We know rates will change next year and will be adjusted at a later date.

Fiscal year grants will be charged tuition at the flat rate of \$6,000 per semester for each Graduate Student that has a one-third time or greater appointment during the semester. Enter how many semesters of tuition support you will need for the graduate students in your budget.

Fringe Benefits is calculated for you using the amounts you entered elsewhere in the individual salary sections of the budget. A grid on the budget page will show how the Fringe Befit amount was calculated. Total Fringe Benefits amounts are calculated fields. You cannot make entries in this section.

▼ Startup Amount

<b>Startup Amount Exceeds 25% Original Award Amount</b>	Yes
---	-----

▼ Layperson's Summary

To the best of your ability, please summarize your project in language that could be understood by someone outside of your academic discipline. FRC Lead Reviewers may NOT be experts in your discipline. Please keep this in mind as you're writing the Layperson Summary. This helps OVCERGE convey the nature of your Project to the WARF board.

The Layperson's Summary section may be up to 2,000 characters long (a space is a character). You cannot include special characters, bolding, underlining, graphics, equations or formulas in this summary.

▼ Protocols

Project Description
---------------------

If appropriate for your research project, please use the following headings in writing your project description:

- a. Specific aims/research questions
- b. Significance (with attention to how the study adds to the literature or advances your field)
- c. Approach (design, methods, and analysis)
- d. Expected products (e.g. conference presentations)
- e. Future directions

Otherwise, you should focus on: (1) What you plan to do when; (2) How you plan to do it; (3) What product is likely to result. This project description should be no longer than 10,000 characters (a space is a character); It is roughly equivalent to 4 to 5 double-spaced pages with 12 point Times font size.

The project description should be written so that it is understood by someone outside of your academic discipline. FRC Lead Reviewers may NOT be experts in your discipline.
